

HELP FEED HUNGRY CALIFORNIA SCHOOLCHILDREN

Hunger is a hidden crisis affecting 1 in 4 kids in California alone. Today we have an important opportunity to help make free, healthy breakfasts available to California schoolchildren who need it most.

The California State Assembly Budget Committee is considering a one-time \$4 million appropriation to help make breakfast part of the school day for hundreds of thousands of children statewide.

Please ask California's budget leaders to support this critical investment in our state's children.

Make quick and easy calls to California budget leaders to voice your support for breakfast after the bell. A sample script and phone numbers are below.

My name is _____. I live in _____, California.

I am calling to urge Assemblymember/Senator _____ to support a strategic, one-time state investment in after-the-bell school breakfast.

Four million dollars in startup and expansion grants to help schools implement after-the-bell breakfast will fight hunger, improve academic achievement, and support good health for hundreds of thousands of vulnerable students across California.

Thank you.
